

Automatic opening at the push of a button

TWIST 2

ADVANTAGES

- Convenient, **automatic opening mechanism** with integrated cushioning
- Fast end-device charging thanks to the **22 watt USB A/C charger**
- No unsightly fingerprints thanks to high-quality surfaces with an **anti-fingerprint coating**
- **Removable cover** in two different design versions for easy and convenient cleaning

AWARDS

reddot winner 2022

The new TWIST 2 can be opened automatically at the push of a button and is therefore even more convenient to operate. After use, the cover can be closed simply and safely by hand. The new anti-fingerprint coating ensures that no traces of the user or fingerprints are left behind. The removable cover makes cleaning even easier.

TWIST 2 is characterised by its refreshing, innovative design with high-quality surfaces. TWIST 2 is now also available as a square version and with a 22 watt USB A/C charger for fast end-device charging.

An elegant and compact design upgrade for kitchens, living rooms and offices.
